

Technical Data

FireTalk EN443

Helmet set to provide optimum communication for fire- and rescue services

- robust design
- the waterproof electrets gooseneck microphone
- the splash-proof send button
- can be adapted to all standard fire brigade helmets quickly
- **Certified according to EN443:2008-02 For helmets: Schuberth F120 / F120Pro / F130 / F220**
- Compatible with these helmets: (certification possible / available on request)
Rosenbauer Heros Smart / Rosenbauer Titan / Rosenbauer Heros Xtreme / Casco PF112 extreme / Dräger HPS7000 / HPS4300 / HPS4100 Bullard H3000 / Schuberth F100Pro

Technical data

Microphone

Pattern: electret
Directional: noise cancelling (NC)
Impedance: 2500 Ohm
Sensitivity: -34 dB V / Pa, 1 kHz

Frequency range: 100 Hz – 5 kHz

Speaker

Impedance: 150 Ohm at 1 mW / 1 kHz
Sound pressure level: max. 106 dB
Frequency range: 300 Hz – 4 kHz

Pattern: magnetic

Additional Data

Temperature range: -30°C to +70°C
Weight: 168 g (incl. Helm adapter)
