- electronic adaptation to almost any kind of analogue or digital radio unit
- longer microphone suitable to wear under respirator masks available

Technical data

Microphone

Pattern: electret
 Directional: noise cancelling (NC)
 Impedance: 4400 Ω
 Sensivity: -44 dB V / Pa, 1 kHz
 Frequency range: 300 Hz – 9 kHz

Send button

Protection class: IP54 - Protection class: DIN
 EN 61058-1 VDE 0630 Part 1, EN 60529:1991
 DIN VDE 0470-1:1992-11
 Housing: impact resistant plastic housing, black,
 with cloth clip
 Life cycle: min. 1.500.000 cycles

Speaker

Impedance: 32 Ohm
 Sound pressure level: max. 117 dB
 Frequency range: 100 Hz – 4 kHz

Pattern: magnetic

Additional Data

Temperature range: -30°C to +70°C
 Weight: 118 g (incl. PTT button)

Additional data

Neckband size: Medium (59-64 / Standard)
 Small (53-58)
