

Aquapac's Submersible range is perfect for anyone on the water who doesn't want to worry about their gear.

Sailing, kayaking or lifeguarding, this case allows you to get on with it whatever the conditions.

Manufactured from TPU, each case allows use of buttons and switches, and you can talk and hear as normal right through the case.

Supplied with an adjustable lanyard and reinforced attachment eyelet it's easy to carry and always close to hand.

The Aquaclip sealing system is independently tested by Engineering Research Centre at Imperial College, London and guaranteed to IPX8 (Underwater to 5m/15ft).

Guaranteed for 5 years from first purchase, worldwide.

For full instructions and warranty information, please see www.aquapac.net

Put the clamp together, twist the levers round and your case is sealed. Simple!

Just make sure that there's nothing caught in it, and that the material isn't folded or creased near the clamp.
