

Technical Data

PTT-ED

Robust, monaural headset with dynamic microphone to be used in many areas

- microphone can be turned by 240° for environments with medium noise levels
- Flexible, can be used on the right or the left side
- large send button PTT-8 is easy to operate
- electronic adaptation to almost any kind of analogue or digital radio set
- soft cushioning of the hearing capsules

Technical data

Send button

Housing: impact resistant plastic housing, black, with cloth clip
 Life cycle: min. 1.500.000 cycles
 Protection class: IP54 - Protection class: DIN EN 61058-1 VDE 0630 Part 1, EN 60529:1991 DIN VDE 0470-1:1992-11

Microphone

Frequency range: 40 Hz – 15 kHz
 Pattern: dynamic

Directional: cardioid
 Impedance: 200 Ohm
 Sensivity: -50 dB V / Pa, 1 kHz

Speaker

Pattern: dynamic
 Impedance: 400 Ohm at 1 mW / 1 kHz
 Sound pressure level: max. 94 dB

Frequency range: 16 Hz – 10 kHz

Additional data

Noise attenuation: approx. 23 dB

Additional Data

Temperature range: -20°C to +70°C
 Weight: 390 g (incl. PTT button)
